

Passport Features:

Business Connections

Email Notifications

Mobile Friendly

Brandwise Passport

Your account within the Brandwise Ecosystem

Facilitate Communication

Brandwise Passport facilitates communication and the exchange of data between colleagues, Suppliers, Agencies, and Retailers within the Brandwise Ecosystem. With Brandwise Passport you're always in control of your own data, relationships, and profile contact information.

Business Connections

Easily manage and establish business connections with the Brandwise Passport. This powerful business companion is easy to setup and is completely free to use. Send invitations directly from your Passport dashboard. Once the invitation has been accepted, you're automatically connected and ready to send and receive product files!

Email Notifications

Once a product file has been uploaded into Transit by a Supplier, that data will be instantly shared to all of the Brandwise-powered Agencies connected through your Business Connections on Brandwise Passport.

Suppliers get access to Transit

Upload product data into Transit, an easy-to-use web portal, and share product files seamlessly to all of your connected Brandwise-powered Agencies.

Mobile Friendly

Brandwise Passport is fully responsive across all devices. Accept or connect to new Business Connections from a smartphone, tablet, or directly from your computer.
