

Transit Features:

Product File Upload

Saved Product File Mapping

Product File Delivery

Mobile Friendly

Transit

Increase sales by putting the power of data in the hands of the Supplier.

Upload Product Files

Simply upload your product data into an easy-to-use web portal. This step-by-step process validates the information as you go to ensure you have a perfectly formatted product file that's ready to share!

Share Product Files Seamlessly

Increase efficiencies by streamlining the product file delivery process with Brandwise Passport. Once you upload your product file it will be shared instantly with all of the Brandwise-powered Agencies you're connected to via Brandwise Passport for immediate selling on Play and Reach.

Saved Product File Mapping

At a Tradeshow or Market and need to make a price adjustment? Transit makes it very simple to send out updates by saving the mapping template from previously uploaded product files. Simply upload the file with the changes and Transit takes care of the rest!

Mobile Friendly

Transit is fully responsive across devices. Need to make a change on the go? Transit can handle it. Sign in online from your smartphone, tablet, or computer.

Sign up for Brandwise Passport

The Brandwise Passport is your account within the Brandwise Ecosystem and is also home to Transit. Sign up for your Brandwise Passport and register your business to start taking advantage of the many benefits of Transit!
